Shared Agreements

Our primary commitment is to **build relationships** both with each other and within ourselves. We share a *collective goal* of becoming critically conscious educators who are prepared to serve all students in our classrooms. A positive learning experience relies on creating an atmosphere where space is held for *multiple truths* to coexist, and where we begin to *notice and name power dynamics* in our own group and also in the education system, its processes, and its policies. We acknowledge that differences among our identities, social backgrounds and experiences will influence our perspectives and those of others. We agree to *share our truths bravely*, to *acknowledge the humanity* of each other and ourselves, and to *look for learning* in ourselves and others.

We agree to keep confidential all issues of a personal or professional nature that are discussed in class.

Grading Scale

The grades earned for the course will be calculated using City University of Seattle's decimal grading system, found in the current University Catalog (<https://www.cityu.edu/catalog/>).

Grading rubrics with details on how each assignment will be graded are located under *Assignments* and/or in *My Grades* in the online course menu. Students should review the rubric for each assignment prior to completing their work in order to understand how it will be assessed.

Course Assignments and Grading

Lesson Plan Revision (20% of Final Grade)

Candidates select a lesson plan they've written for another class or for an internship observation, or a pre-written lesson plan assigned by the instructor. Candidates will analyze and evaluate their lesson plan for its accessibility and appropriateness for a variety of special education students. Candidates will submit their analysis of the lesson plan and propose revisions to make it more accessible and differentiated for a variety of special needs.

Accommodations and Modifications Resource Toolbox (20% of Final Grade)

Candidates will interview practitioners in the field of special education regarding accommodations and modifications for special education students. Based on the interview and further independent research, candidates create a toolbox of potential accommodations and modifications for a variety of special needs students. Accommodations and modifications included in the toolbox should be presented with accompanying brief case examples/descriptions of the type of student who might benefit from that specific adaptation. Candidates will also address important issues in collaborating with other team members surrounding accommodations and modifications for special education students.

Special Education Learning Segment (40% of Final Grade)

Candidates design a 3-lesson learning segment for a specific special education student. The candidate will examine the student's IEP and design the learning segment around one of the student's IEP goals. Students will be "real life" and chosen by the candidate OR candidates will be provided with a mock IEP and hypothetical student profile provided by the instructor.

Participation/Engagement/Essential Dispositions (20% of Final Grade)

Candidates engage regularly and actively in class discussions, activities, and affinity groups as a means of building self-awareness and increasing their capacity and stamina for engaging in self-reflection around issues of identity. Candidates will work to meet essential dispositions criteria in their coursework whether online or in person.

Course Policies

Participation

Participation will be graded based on engagement in class discussions and activities (both online and mixed modes). Online-only courses will be determined via active engagement in weekly discussion boards or other interactive opportunities provided by the instructor. Mixed mode

courses will be determined based on presence in class and engagement with content and peers both within and outside of face-to-face class sessions.
